

SALPERTON

Salperton's hull lines were exhaustively researched and tested to marry elegant styling with sparkling performance. The result is an easily driven hull with a flexible sail-plan designed for ease of handling in all conditions. Salperton is equally impressive under power with an 8,000 nautical mile range at optimum cruising speed.

Worldwide communications plus state-of-the-art entertainment systems, a gymnasium, a restaurant-style galley and the ability to carry up to 12 crew ensure enjoyable cruising in any location.

Salperton has been created to provide the ultimate superyacht sailing experience. This 174ft Dubois Naval Architects ketch sets new standards in terms of superyacht styling and comfort. Skilled craftsmen at Alloy Yachts International devoted some 400,000 hours in the creation of this sailing masterpiece.

Salperton: a landmark yacht

The standout feature of this 174ft ketch is that the entertainment areas of the main deck are all on a single level

The cherrywood interiors are exquisitely finished, with accommodation for the owners plus six guests in superbly appointed ensuite staterooms.

From the cockpit lounge through the saloon past the formal dining area and into the wheelhouse, forms a sweeping vista encompassing some 2400 sq ft of elegant joinery, handcrafted furniture, raised and fielded panelling and panoramic views all around. The effect is quite breathtaking.
